# MAHLE ArcticPRO<sup>®</sup>

Powerful models for your A/C service

These units are cutting edge when it comes to connectivity and ease of maintenance, with Bluetooth and WiFi, a large touch screen, a status monitoring app, and remote service.

## The new generation of service units

### ACX 310 & ACX 410 Features

- 2x dedicated machines - ACX 310 for R134a, and ACX 410 for R123yf.
- Although an entry level machine, the MAHLE ACX 10 series comes with a very high specification, usually only found on high end units.
- Fully automatic, powered by internal and up-datable vehicle databases.
- Hybrid ready for safe working procedures on EV vehicles. (Inexpensive optional upgrade kit required).
- 12kg refrigerant pressure vessels.
- 3m service hoses - extendible up to 6m.
- Exceptional build quality with compact design - ideal for mobile AC service.
- All ACX machines include a vehicle performance test function to help identify any system issues, such as leaks and wasted refrigerant.
- No heater blankets needed - MAHLE patented refilling technology is much faster and more efficient. A 100% fill is always guaranteed.
- Highest vacuum on the market (minimum level of 0.02 Mbar) and the fastest fill rate.
- Optional agricultural and construction machinery database available at extra cost.
- Two year warranty.

Features	Technical data
